

Since the federal law has what is known as the "Existing Business Relationship" exemption (EBR). The EBR exemption allows any organization with whom you have conducted business within the last 18 months and their affiliates to contact you by phone.

I would like to see Indiana's law keep additional calls from coming to my home. If Indiana's law is overridden by the federal law, many more telemarketers will take advantage of this EBR exemption and will be exempt from enforcement of the Indiana law. Please do not let this happen.
